

## WE ARE INVOLVED:

Our aim is to defend the right to asylum and the rights of refugees. We also defend the rights of immigrants as well as working towards their inclusion in Catalan society.

To achieve these objectives we run several programmes that aim to provide a comprehensive response to the problems linked to forced displacement. We work in two main areas:

- providing social, legal and occupational programmes for refugees and immigrants.

- defending the rights of refugees and immigrants through political and social advocacy and participation.

Barcelona

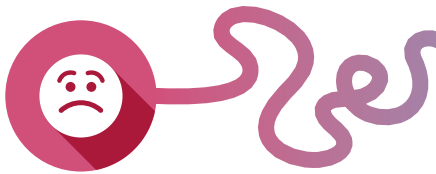

If you are a foreign woman and your rights have been violated in your country of origin, during your journey, or here:

## THIS INFORMATION IS FOR YOU!

# CEA(R)

Comissió Catalana  
d'Ajuda al Refugiat

## WHILE HERE...

- Have you been **forced to have sexual relations**?
- Have you been **abused** or beaten?
- Has anyone forced or attempted to **marry you** against your will?
- Has anyone **harassed** you to fall in love or have intimate relationships with someone?
- Have you been injured on your **genitals**?
- Have you been **forced to work as a prostitute**?
- Has **your documentation been taken from you**?
- Were you **promised a job** and have had to **work without having breaks and/or not been paid**?
- Are you trans and have you been persecuted for that?

If the answer to any of these questions is yes, you could ask the Spanish authorities to protect you.

## WE WILL:

- tell you how to get protection and help you in the process

- offer counselling and social support

- tell you what other services are available

## WE ARE WITH YOU!

**Everyone has the right** to seek **protection** outside their country of origin and to be protected if they are **fleeing persecution** on the grounds of ethnicity, religion, nationality, political opinions, **gender, sexual orientation, gender identity** or fleeing from an **armed conflict**.

*Women* are sometimes **persecuted just because we are women** and we may be forced to flee our country. We may also be more vulnerable during the journey and when we arrive in the host country where our fundamental rights are severely violated.
